Marshall Municipal Utilities Honored with National Award for Outstanding Safety Practices

MMU earns Safety Award of Excellence

April 15, 2024: Marshall – Marshall Municipal Utilities (MMU) has earned the American Public Power Association’s (APPA’s) Safety Award of Excellence for safe operating practices in 2023. The utility earned a Diamond level designation in the category for utilities with 110,000 to 249,999 worker-hours of annual worker exposure.

“Safety needs to be the first thing on every employee’s mind as they go about their day,” said Jeff Bergstrom, General Manager at MMU. “We are proud of our safety culture and we care deeply about sending our employees home to their families safely every single day.”

146 public power utilities from across the country earned APPA’s Safety Award of Excellence for 2023. Entrants were placed in categories according to their number of worker-hours and ranked based on the most incident-free records and overall state of their safety programs and culture during 2023.

APPA is the voice of not-for-profit, community-owned utilities that power 2,000 towns and cities nationwide.
