Marshall Municipal Utilities Announces Employee of the Year

MMU has announced Will Crisp as their Employee of the Year for the fiscal year ending September 30, 2020.

December 7, 2020: Marshall - Marshall Municipal Utilities has announced Will Crisp as their “Employee of the Year” for the fiscal year ending September 30, 2020.

In nominating Crisp, Underground Facilities Director Grant Piper highlighted Crisp’s leadership and dedication during trying times related to COVID-19.

“Will completed a sewer main replacement project while understaffing caused the crew to change personnel, often on a daily basis.” Piper continued, “Will kept the project moving forward, safe, and completed the project on time.”

In conclusion, Piper said, “Will’s knowledge of MMU’s assets and his dedication to quality along with his ability to teach newer members of Underground Facilities make him a great choice for Employee of the Quarter.”

Crisp joined MMU in April 1994 as a Meter Reader. In 1996, Crisp transferred to a General Maintenance role in Underground Facilities. Crisp was promoted to Maintenance in 1998 and again in 2007 to System Operator. In July 2017, Crisp was promoted to Foreman in Underground Facilities, the position he holds today.
